## ABOUT INSTITUTE

IIMT College of Science & Technology, Greater Noida came into existence after receiving recognition from NCTE for offering teacher education course to a unit of 100 B.Ed. students during the academic session, 2006-07. Currently the College is also running B.Sc. (Computer Science) Course. The college is situated at Plot No. 20, Knowledge Park III, Greater Noida. It is recognized by NCTE and affiliated from C.C.S. University, Meerut. It is a self-financed college, managed by seven Rotarians, all of whom are devoted to the service of humanity and downtrodden section of the society. The college is established with a view to mould and shape the prospective teachers to be competent to transact the curricular experiences to the students of secondary schools and to produce quality teachers with great values, so that they could contribute in the task of Nation building.

## OUR MISSION

- Providing multi-faceted development of the students to prepare them for latest trends and professional challenges.
- To create a learner centric environment for the students to be honed in different skills and make them advance in teaching & technology profession with the seamless incorporation of science and arts.
- The College envisions to be center for academic excellence across the Nation.

## OUR VISION

The vision of the College is to be among the best Teacher Training & Computer Science Institutions, creating extraordinary career driven professionals to cater the need of today's Hi-tech era.

## ABOUT SEMINAR

A platform called "Developing India 2047" aims to investigate and incorporate the profound wisdom inherent in India's indigenous knowledge systems into the country's development path. The goal of this National Seminar on, 'The Indian Knowledge System in Context of Developing India 2047', is to bridge the gap between tradition and modernity by focusing on old sciences, philosophies, arts, and indigenous customs. The Seminar assimilates a key component of Prime Minister Shri Narendra Modi Ji's plan for Developing India 2047 through fostering multidisciplinary pedagogical alterations in Education. This will eventually drive India's human capital development in the new knowledge economy. The implementation entails a thorough redesign of the curriculum that incorporates technology integration, skill development, and creativity. The event aims to create interdisciplinary collaboration among Scholars, Academicians, Policymakers, and Practitioners by identifying synergies between conventional wisdom and contemporary concerns through keynote talks, panel discussions, and paper presentations. The main objective of the Seminar is to cast the vision of culturally & technology embedded India into reality.
