

## POs, PEOs and PSOs. of CSE Department

### PROGRAM OUTCOMES (POs)

**PO1-Engineering Knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

**PO2-Problem Analysis:** Identify, Formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

**PO3-Design/Development of Solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

**PO4-Conduct Investigations of Complex Problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

**PO5-Modern Tool Usage:** Create, Select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

**PO6-The Engineer and Society:** Apply Reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

**PO7-Environment and Sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

**PO8-Ethics:** Apply Ethical Principles and commit to professional ethics and responsibilities and norms of the engineering practice.

## Department of Computer Science & Engineering

Approved by AICTE, New Delhi and Affiliated to Dr. APJ Kalam Technical University, Lucknow

---

**PO9-Individual and Team Work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings

**PO10-Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

**PO11-Project Management and Finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

**PO12-Life-Long Learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

### PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

**PEO 1:** To provide solid foundation in computer science engineering along with good communication and entrepreneurship skills for tackling social issues.

**PEO 2:** To impart students with good scientific and engineering knowledge in order to analyze, design and create novel products for giving practical solutions to real life problems.

**PEO 3:** To create engineers with sound technical knowledge for facing all sorts of challenges in industry or in pursuance of higher studies.

**PEO 4:** To motivate students acquire aptitude for lifelong learning along with leadership skills, team spirit and ethical values.

### PROGRAM SPECIFIC OUTCOMES (PSOs)

**PSO 1:** Ability to interpret and analyze network issues in real world environment.

**PSO 2:** Ability to design and develop web and mobile based application under realistic constraints.
