From Chief Editor's Desk

Dr. Ajay Kumar Gupta
HOD, CSE (AI)

In 2005, our Computer Science Department was established, marking the beginning of a journey that initially enrolled 60 students but has now grown to accommodate 120 students annually. Our main goal has always been to provide excellent education in Computer Science Engineering.

The Department received accreditation from the prestigious NBA (National Board of Accreditation), in its second cycle, showcasing our steadfast dedication to becoming a Center of Excellence. Our vision is to deliver education and consulting services that meet global standards in computer science. Our aim is to nurture globally competitive and self-disciplined computer engineers poised to make significant contributions worldwide.

In line with the fast-paced evolution of technology and the perpetual need for innovation, we are committed to producing high-quality professionals who hold key positions in the IT industry in India and abroad.

The IIMT College of Engineering has consistently demonstrated outstanding performance in recent years, guiding its students to leadership roles across various industries, corporations, and technology platforms. The Institution's vision and mission are centered on educational excellence, innovation, and ethical responsibility, with a specific emphasis on equipping students to thrive as adaptable professionals capable of making positive contributions to both industry and society. Within IIMT, the Department of Computer Science (AI) is dedicated in setting a new benchmark in technical education while upholding industry expertise and high standards.

Dr. Ajay Kumar Gupta
Associate Professor
Chief Editor & HOD Dept. of CSE (AI)

EXPERT'S TALK

“Cyber Security: Challenges & Future Scope”

On 12 March 2024, the Department of CSE(AI) organized a guest lecture on “Cyber Security: Challenges & Future Scope”. The session was initiated with presenting a memento to Prof. Triveni Singh, the guest speaker, as a token of gratitude, by Prof (Dr) M. K. Soni, Director General, IIMT Group of Colleges.

Prof. Triveni Singh, gave a detailed introduction of role of cyber security and rapid increase in global demand of cyber forensic experts in industry, to the students. He explained the role of cyber security in different domains such as how to secure data from intruders, how to protect the information from unauthorized access, etc.

He also explained the benefits of cyber security, consequences in case of negligence, and how a person can build a bright and successful career in this domain.

Debate Competition

“Is AI A Boon or Curse from Employment Point of View”

On 14 March 2024, the Department of CSE(AI) organized a debate competition under AI & Tech Club on the topic, “Is AI a Boon or Curse from Employment Point of View?”

Points presented were accepted by the students with cheers and claps. Some of the points made everyone to think about the impact of technology on welfare of human being. Arguments and counter arguments were made. The debate was so intense that it became difficult for judges to reach to conclusion considering the pros and cons of technology.
