Dynamic teaching strategies

Established in 2006 as part of the prestigious IIMT group of colleges, our institution has consistently delivered high-quality education to diploma, undergraduate, and postgraduate students in the Delhi NCR region. Our graduates have made significant contributions to the healthcare and pharmaceutical sectors, enhancing our reputation as a center of excellence.

Director's Message

Dear Readers,

Greetings to All!

Welcome to the latest edition of the IIMT College of Pharmacy newsletter - BHESHAJA. I am excited to share the latest News, Research, and Developments from our college to the wider pharmacy community.

Pharmacy is a dynamic and ever-evolving field, and we must stay up-to-date with the latest advancements and trends. This newsletter provides a platform for us to share our insights and knowledge, as well as with our colleagues and peers to the wider pharmacy community.

In this edition, we have articles covering a range of topics, from the latest research on drug interactions to innovative pharmacy services and initiatives aimed at improving patient outcomes. We also feature interviews with leading pharmacy professionals, sharing their perspectives on the current state of the industry and future directions.

I hope that this newsletter serves as a valuable resource for you and inspires you to continue learning and growing in your pharmacy practice. As always, we welcome your feedback and contributions to the future editions.

Thank you for your immense support and dedication to the pharmacy profession.

Sincerely,

Dr. Nakul Gupta

Advancements in 2023: Unveiling the Impact of Artificial Sweeteners, Breakthroughs in Colon Cancer Research, and Game-Changing Developments in Contraceptive Pill for Male

Will I get cancer from using artificial sweeteners like sucralose?

We explored the link between artificial sweeteners and cancer, spotlighting sucralose-6-acetate, a sucralose by product causing potential DNA damage and gut issues. Dr. Hilary Guite identified common sources, like chewing gum. The study, focusing on human blood cells, revealed impractical daily intake for similar effects. Andrea questioned the scarcity of human-focused research on artificial sweeteners' cancer risks, citing challenges like funding and ethical concerns.

Why are colon cancer rates rising in young people?

Our focus shifted to the concerning surge in colon cancer cases, especially among younger adults, doubling from 11% to 20% in the past two decades. Key symptoms linked to early-onset colorectal cancer include abdominal pain, rectal bleeding, diarrhea, and iron deficiency anemia. Andrea highlighted the rise in cases under 55 and emphasized the significance of symptoms. Maria pointed out that having just one symptom could double the risk of colon cancer. Lifestyle factors, including sedentary work and diet, as well as health and family history, were identified as potential contributors to the rise.

Why is there no contraceptive pill for male in the market yet?

Our final focus was on male contraception, particularly the absence of oral contraceptives for men despite female equivalents existing since the 1960s. Current options for men are limited to condoms and vasectomies, each with drawbacks. Maria highlighted potential issues with condoms, including allergies and breakage, while vasectomy reversal success rates range from 30-70%.

There are halted trials for male contraceptives due to side effects, contrasting the acceptance of similar side effects in female contraceptives. Prof. Lonny Levin acknowledged societal acceptance but emphasized the high side effect threshold for healthy individuals. I suggested that, given our ability to rapidly develop and prove the safety of a COVID-19 vaccine, creating a safe male oral contraceptive should be within reach from a scientific perspective.

Recent research indicates that the use of Meftal Spas may have negative effects on kidney function. (Image source | Unsplash)

The Government issues a safety advisory regarding Meftal: An expert provides recommendations in response

The Indian Pharmacopoeia Commission (IPC) has advised the public against using Meftal.

Meftal is a medicine that is frequently used as a pain reliever for illnesses like menstrual cramps, rheumatoid arthritis, osteoarthritis, dysmenorrhea, mild to moderate pain, inflammation, fever, and dental discomfort.

The committee discovered cases of a syndrome known as drug reactions with eosinophilia and systemic symptoms (DRESS) after conducting a preliminary examination of medication reactions in the Pharmacovigilance Programme of India (PvPI) database.

Meftal is a mixture of mefenamic acid and dicyclomine.

Recent studies have indicated that Meftal may harm kidney function, potentially causing chronic kidney disease. The Drug Regulatory Department of India has imposed restrictions, and a complete ban may be considered. Doctors prescribe Meftal for abdominal pain due to infections, and gynecologists may recommend it for menstrual pain. However, prolonged use can harm organs like the liver, kidneys, lungs, and heart. Drugs like Diclofenac and Aceclofenac pose similar risks. While selling banned drugs without a prescription is against regulations, legal loopholes in India may allow it. Dr. Harsh Bhatt emphasizes the importance of educating people on proper drug use and consulting medical professionals for the right prescriptions.

MOU with Apollo Cradle and Apollo Spectra Hospital, Greater Noida on 11/12/2023 to provide medical treatment & Health care services for our students, employee and their dependants.

Group Director Dr. K.K. Paliwal sir , Director IIMT COP Dr. Nakul Gupta, and Head HR Shri Ajay Rampuri signing the agreement with the team of HR Manager Apollo Cradle and Apollo Spectra Hospital, Greater Noida

IIMT College of Pharmacy-Training and Placement Cell

Under the direction of the Honorable Chairman of the IIMT Group of Colleges, the Training and Placement Cell (TNP Cell) was established to assist each student in exploring placement options by inviting various businesses for on-campus recruiting. A forum for the sharing of skills and talents is being created. Making the student body prepared for upcoming problems is another goal. The College is eager to collaborate with reputable businesses on research projects, training initiatives, internship programs, and hiring efforts. The passion for introducing up-and-coming hopefuls to the sector rises along with the conviction that it would be mutually advantageous. In addition to assisting students in landing "dream" employment, the hand-holding helps the visiting employers choose the "best" applicant for the position.

Our Allumni

Abhishek Dondiyal

Batch 2017-2021

Designation - Senior Executive EXL Pvt. Ltd

Having graduated from IIMT College of Pharmacy, I express gratitude for the amalgamation of academic prowess and practical impact. The invaluable practical training, mentorship, and a strong network were instrumental in shaping my success within the pharmaceutical industry. I proudly carry the institution's legacy, actively contributing to healthcare advancements. Gratitude persists for the transformative experience and lasting connections forged

Ishan Sharma

Batch -2015-2019

Senior Product executive - Oziel Pharmaceuticals Pvt Ltd

As a graduate of IIMT College of Pharmacy, my educational path was characterized by a blend of rigorous academics and practical exposure. The institution's dedication to excellence equipped me for the intricate challenges of the pharmaceutical industry. Carrying forward the principles of innovation and ethical practice, IIMT College of Pharmacy remains a cornerstone in my professional journey, and I am proud to make meaningful contributions to the dynamic field of pharmaceuticals

Blood Donation Camp

On 30th November, 2023, IIMT COP in Association with Rotary Club Green Greater Noida organised a blood donation camp. The camp was organized by the faculty to help the Thalassemia patients. The camp took place in the Sarabhai Hall. The Director of the College of Pharmacy and Group Director of IIMT Group of colleges were present throughout the programme to motivate the students. The function started around 10 o'clock in the morning. The senior students of the college too participated in the program. Apart from students, many common people also participated in this.

"Exploring the Pinnacle of Innovation: A Captivating Industrial Voyage to Dr. Reddy's and Dabur in the Enchanting Hills of Shimla!"

IIMT College of Pharmacy organized a renowned pharmaceutical company industrial tour in the industrial sector of Himachal Pradesh from November 23 to November 27, 2023. More than fifty students participated in the tour, making it a significant event for the college.

The tour commenced with the flag hoisting ceremony conducted by Group Director Dr. K.K. Paliwal and Dr. Nakul Gupta, Director of the Pharmacy Department. They extended their best wishes to the students, imparting the importance of continuously acquiring new skills and knowledge.

"Future Healers Embark on a Trailblazing Odyssey: A Student Sojourn into the Excellence of Apollo Hospitals"

On 30th November 2023, D. Pharma 1ST YEAR and on 13th December 2023, D.PHARM 2ND YEAR students assembled on the college campus at around 12:30 PM. They left for the Hospital Visit at 01:00 pm by college bus, altogether there were 24 students accompanied by 1 faculties of the pharmacy department.

After reaching there Ms. Vrinda (**Admin Cell- Apollo Hospital**) welcomed the pharmacy students and faculties. The students were guided by various departments of the Hospital.

Under the aegis of Dean Students' Welfare, various clubs have been established for the overall development of the students.

Environmental Club- "Bharath Swatchta Mission"

"Bharath Swatchta Mission" was organized on 04 Oct 2023 at 2:00 pm by IIMT College of Pharmacy. This event was organized at Jagat Farm Main Market & Pari Chawk Metro Station. All the preparations such as arrangement of Cleanup supplies such as Mask, gloves, trash bags etc were made. A team of student coordinators and faculties were there for Cleaning. The students and professors of the department has participated in the Cleanup drive.

Environmental Club- Recycling Drive

Improper waste management is a global issue and has negative effects on the environment. Due to a lack of education many communities around the world still burn or bury their trash which has a huge negative impact on our planet. This is down to a lack of support or viable effective options for waste management which is what this project aims to change.

With your support we will educate and motivate communities to recycle and help tackle the global warming crisis community by community globally.

NSS CLUB - POSTER MAKING COMPETITION

The event was organized by the NSS club of IIMT College of Pharmacy, Greater Noida via physical mode on the ground floor of IIMT College of Pharmacy. Hon. Group Director has marked his presence to motivate the students.

NSS CLUB - A SESSION ON NUTRITION AND ITS AWARENESS

The session was organized by NSS CLUB of IIMT College of Pharmacy, Greater Noida via physical mode in the Pharmacy Lecture theatre of IIMT College of Pharmacy. The main agenda of this session was to get a complete idea of "What is Nutrition and how it plays an important role in our daily life". The Session was preceded by a short talk by our Host Ms. Shweta.

Dr. Pushpendra Jain's session provides enlightening & and exploration of the pivotal role nutrition plays in our daily lives. Attendees delved into the intricate connections between dietary choices and overall well-being, gaining valuable insights that transcended the boundaries of traditional pharmaceutical discussions.

Social Club

The Fireless Cooking Challenge was organized by Social Club at IIMT College of Pharmacy. The main objective of this challenge was to challenge the participants to make the most of the resources available to them. This may involve using simple tools, re-purposing items, or adapting recipes to suit the constraints of fireless cooking.

Sports Activity

Some Glimpses of Sports event in which students from various colleges has participated.
