CANVAS

Vol. No. 2 Issue No. 4 April-June 2021 Quarterly

Editor's Desk

This year has been incredibly challenging, but I am proud to say that our faculty members, staff, and students are meeting the challenges with grace, good will and creativity.

Just before Summer Break, we received Government "Stay Home, Stay Healthy" order and had to suspend on-campus classes. Our faculty and students transitioned well to online teaching and learning. Without physical access to our archives and libraries, we learned to rely even more on electronic resources. Ingenuity and dedication to excellence in education, research, and service were demonstrated.

Immediately before the broader shutdown, the editors of our Newsletter, CANVAS, arranged a guest lecture with alumni and conducted a technical activity also. An Entrepreneurship cell was created in our department. Our faculty conducted Parent and Teachers meeting. Despite the circumstances, they managed to produce a beautiful edition of the Newsletter in June. We hope to continue these conversations; reaching to you with our achievements. When the pandemic ends, we look forward to resuming our plans for more events.

We hope you enjoy this newsletter also.We appreciate your continued support and shared commitment to the Department of MCA—and to our mission as to develop professionals with application-oriented computing abilities and ethical practices.

Take care, and stay healthy"

Dr Naveen Kumar Sharma
Head of the Department

Quote for the Quarterly

Whenever two people meet, there are really six people present. There is each man as he sees himself, each man as the other person sees him, and each man as he really is.

William James

Alumni Connect

We nurture to maintain a sense of connection to the Alma Mater among Alumni by keeping in touch with them on a regular basis by arranging and managing Alumni reunion events providing a place for the Alumni to exchange thoughts on current academic, cultural, and social concerns. With this thought in mind our department conducted two such events.

Department of MCA organized a "Virtual Alumni Meet-2021" on May 29, 2021 during 11:30 A.M to 12:30 PM. The program began with Welcome note by Prof. (Dr) N.K. Sharma, HoD, MCA Department of IIMT College of Engineering, Greater NOIDA. Mr. Pankaj Singh (MCA batch 2013-16) Regional Academic Head,TCS, Bihar, shared his success stories, experiences and technical discussions with the participants and encouraged current students to work hard and learn the new technologies.

"The Alumni connect" program was organised online on 29th April, 2021 from 11:30am onwards to connect and strengthen the bonding between Alumni and the current students of all the years of MCA. In the session, our Alumnus, Mr. Basu Kumar, (Batch 2015-17), was the speaker cum guest. He is Sr. Consultant in Capgemini, Noida. He shared his success stories, experiences and intellectually interacted with MCA students of all the years who have attended the session. The event was coordinated by DrN.K.Sharma, Prof & Head of the Department.

Students' Corner

Tranquillity is the sole purpose.

Name: Ms Jyotika Bandil
Year : MCA 2nd year
Roll No: 1902160140003

The two main terms mentioned in the title are 'Tranquillity' and 'Purpose'. Tranquillity can be understood as a state of peace and calmness. A state where a person is able to discover most of his/her capabilities. The term purpose here means the purpose you and I, all of us have behind any of our actions in life.

Every person can be referred to as an individual entity in technical definitions. Same applies to the real life terms and definitions. We have different goals, different interests, different thought processes, and different desires. Some find peace in solitude, some find happiness in being popular. Some work so hard to earn more and more money, some work just enough for their needs. Some want to prove themselves right whereas some others want to prove the world wrong. Everyone takes steps towards one's goal. They walk in different directions but as we know North, South, East and West are just four different directions which lead to some destination. There's no wrong direction or wrong destination because wherever we start, after moving a long way in the same direction, we'll reach the same destination at some point of time.

After moving in different directions in our lives, eventually, all of us, want to be at that one destination at some point of time in our lives. That one destination is a peaceful life, happiness, after all the struggles and hard work. We should choose our directions wisely so that we don't turn back because turning back will not lead to our destination and we may lose our path. Explore all directions and then choose your direction to the purpose.

Aim for Excellence
