From Chief Editor's Desk

Prof. (Dr.) Ajay Kumar Sahu **HOD, Department of Information Technology**

The Department of Information Technology at IIMT College of Engineering stands as a vibrant hub of innovation and academic excellence. Our B.Tech program is carefully designed to bridge the gap between software development, business strategy, data analytics, design thinking, and global networking—equipping students to thrive in the ever-changing IT landscape.

Led by a team of highly qualified and research-oriented faculty members, the department fosters a culture of collaboration, creativity, and continuous learning. Our educators are deeply committed to nurturing future-ready technocrats who can address real-world challenges with resilience and innovation.

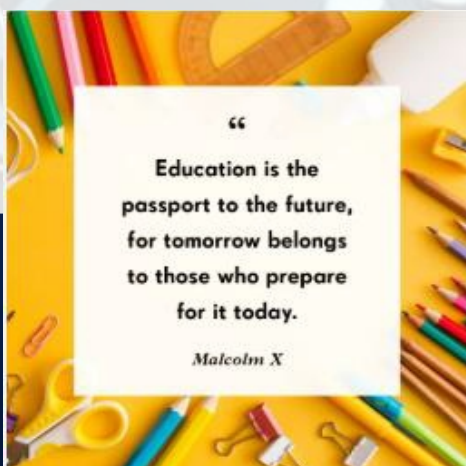

We place equal importance on impactful research, modern pedagogy, and hands-on learning. State-of-the-art laboratories and upgraded infrastructure ensure that students gain practical exposure to the latest technologies and tools relevant to the industry.

Through strong industry-academia partnerships, students engage in live projects, develop entrepreneurial skills, and transform innovative ideas into meaningful outcomes. This holistic approach builds not only technical expertise but also leadership, problem-solving, and critical thinking abilities.

As the saying goes, "Education is a continuous journey—like cycling, we must keep pedaling to move forward." At the Department of IT, we are determined to keep moving forward with innovation, excellence, and a global outlook.

We wish our students and faculty continued success in all their endeavors!

Prof. (Dr.) Ajay Kumar Sahu | Chief Editor & HOD Dept. of IT

WORKSHOP ON PROBLEM SOLVING & IDEATION

The Department of Information Technology, in collaboration with the Institution's Innovation Council (IIC), successfully conducted an engaging and insightful session on Problem Solving & Ideation. The workshop was held on 8th October 2025 at Sarabhai Hall from 11:00 AM onwards. The objective of the workshop was to foster creativity, innovation, and analytical thinking among students—empowering them to develop effective solutions to real-world challenges. The session was led by Mr. Abhishek Gupta, Software Trainer, who shared valuable strategies, real-life examples, and hands-on activities to help students understand the complete ideation process—from identifying a problem to brainstorming, evaluating concepts, and developing innovative solutions. In a rapidly evolving technological landscape, where industry demands highly skilled and solution-oriented professionals, such initiatives play a crucial role in strengthening critical thinking, logical reasoning, and an innovation-driven mindset. The workshop received an enthusiastic response, with active participation from students who contributed meaningfully to discussions and practical exercises. The session concluded with positive feedback, reflecting its impact and relevance.

ICT TRAINING

IBM SKILLS BUILD PROGRAM

The Department of Information Technology at IIMT College of Engineering, Greater Noida, is proud to announce the commencement of an exclusive IBM Skills Build Program, designed to empower students with industry-driven, advanced IT competencies. This transformative initiative is being implemented by ICT Academy and conducted in collaboration with IBM Skills Build, one of the world's leading learning and certification platforms focused on next-generation technology skills.

The primary goal of this program is to:

- Strengthen industry readiness among students
- Enhance employability with globally recognized certifications
- Build innovation, problem-solving, and technical leadership skills
- Bridge the skill gap between academia and the IT industry

With industries evolving rapidly toward digital transformation, this initiative marks a major milestone in reshaping learning outcomes and preparing students for high-growth careers in the tech ecosystem. The Department of IT congratulates all participants and extends appreciation to ICT Academy, IBM Skills Build, faculty coordinators, and institutional leadership for enabling this distinguished learning opportunity.

EXPERT TALK ON

ROLE OF PATENTS & DESIGNS IN STARTUPS

The Department of Information Technology, IIMT College of Engineering, Greater Noida, successfully organized an expert talk on the topic "Role of Patents & Designs in Startups" on Tuesday, 25th November 2025, at Sarabhai Hall. The session began at 2:00 PM onwards and was conducted as part of the institute's continuous efforts to promote innovation, intellectual property awareness, and entrepreneurial thinking among students. The resource person for the workshop was Prof. (Dr.) Anil Saroliya, Professor & Head of the Department (AI/ML) at IILM University, Greater Noida. Dr. Saroliya is a renowned academician and researcher with rich expertise in Artificial Intelligence, Innovation, and Intellectual Property Rights (IPR). His notable contributions and experience in patents and design registration added great value to the session. During the talk, Dr. Saroliya highlighted the importance of protecting innovative ideas and designs, especially in the early stages of startup development. He explained key concepts related to patents, industrial design protection, filing procedures, eligibility criteria, and the role of Intellectual Property in establishing competitive advantage in the market. The speaker also shared real-life examples and case studies that helped participants understand how patents safeguard innovation and contribute to business success. The session was highly interactive, with students actively participating in discussions and raising queries about patent filing, associated costs, legal formalities, and global IPR frameworks. The workshop proved to be highly beneficial for aspiring entrepreneurs, innovators, and researchers.
