From Chief Editor's Desk

Dr. Ajay Kumar Gupta
HOD, CSE (AI)

The institution envisions establishing itself as a distinguished hub for engineering and management education, characterized by excellence, research, innovation, and entrepreneurship, all underpinned by strong ethical values. The overarching goal is to meet the evolving needs of both industry and society.In pursuit of this vision, the institution has outlined a comprehensive mission. Firstly, it aims to provide cutting-edge undergraduate and postgraduate programs, ensuring that students have access to state-of-the-art educational opportunities. Emphasizing a learner-centric approach, the institution seeks to foster experimental innovation and instill lifelong learning skills among its students.This is coupled with a commitment to addressing societal issues with a focus on high ethical values, contributing significantly to the nation-building process.Acknowledging the dynamic nature of industry and academia, the institution pledges to adapt and meet the changing demands of these sectors through active engagement with stakeholders.

IIMT College of Engineering & Technology has consistently exhibited exemplary performances over the last few years while nurturing its students to lead various industries, corporate and technology forums. Now, through its Newsletter, the other institutions and the associated academia will be able to benchmark their own performance and achievements with the IIMT. The institution's vision and mission coalesce around the principles of educational excellence, innovation, and ethical responsibility, with a clear focus on preparing students to be adaptable professionals who can positively impact both industry and society.At IIMT, the Department of Computer Science (AI) is committed to lay down the benchmark in the field of technical education while maintaining industrial standards and expertise.

Expert Lecture

Role of Cyber Security in Industry

On November 9th, 2023, the Department of Computer Science and Engineering (Artificial Intelligence) organized an expert lecture on the "Role of Cyber Security in Industry." The event was attended by second year students from CSE (AI) & AI-DS. The session commenced with Dr. Ajay Kr Gupta, the Head of the Department of CSE (AI) , presenting a Tulsi sapling to Mr. Sumeet Thhahnua, the guest speaker, as a token of gratitude.

Mr. Sumeet Thhahnua provided a comprehensive introduction to the role of cyber security in the industry during the lecture. He elaborated on the various ways in which cyber security plays a crucial role, such as securing data from intruders and protecting information from unauthorized access. He also highlighted the benefits of cyber security and underscored the potential consequences of not being well-versed in this domain. He shared valuable insights with the students on how to build a successful and promising career in cyber security.
