[Handwritten signature and date: 2/3/2020]

FEEDBACK ANALYSIS:

The feedback was taken on 24 parameters and the marks of all these parameters are taken into account and percentage is calculated. The result is depicted on histogram (Figure 1). Anything above 70% is considered as satisfactory. From the result 4 major points identified which scored less than 70%, are as follows:

1. Availability of Internet facilities in the campus.

Currently the internet bandwidth is 100 MBPS. The current bandwidth needs to be further increased to a sufficient level to fulfill all the academic needs of the students and staff.

2. Satisfaction level of functioning of placement cell in the college.

The placement cell needs to arrange placement drives offering more attractive packages.

3. Availability of Sports facilities in the campus.

Though in 2019-20 the college created a cricket pitch with a net around it, but the students wish to have a small cricket ground also. Due to the limitation of free space this demand could not be accommodated. Apart from this the Institute already has the necessary infrastructure and facilities required for sports. We have courts for badminton, basketball, volleyball, and also have most of the indoor games.

4. Motivation for IPR activities.

There should be more focus on IPR activities, including seminars and expert lectures.

ACTION TAKEN:

1. It has been instructed to Manager IT to further identify the scope of increasing the bandwidth.
2. The sports coordinator is instructed to keep the cricket pitch in the campus in a good condition, and also to ensure the availability of consumables handy.
3. The placement cell is informed to arrange placement drives offering attractive packages.
4. The Director is requested to conduct the meeting with all senior faculty members of the college to motivate them to take up the projects which may lead to patent / entrepreneur / startup.

ACTION TAKEN REPORT**

Date: 04 Mar 2020

To,

Manager IT,

IIMT College of Engineering

The existing internet bandwidth is not sufficient as per the feedback report from students taken for session 2019-20. So kindly take necessary steps to explore an increase in the bandwidth from the current 100 MBPS and submit the report to Director.

ACTION TAKEN REPORT

Date: 04 Mar 2020

To,

Sports Coordinator

IIMT College of Engineering

As per the feedback report taken from students for session 2019-20, there is a demand for a cricket ground. Due to the limitation of free space this demand could not be accommodated. In this regards you are instructed to keep the necessary infrastructure and facilities required for sports, like courts for badminton, basketball, volleyball, and other indoor games in good condition. You are also instructed to give a presentation to the Director and the undersigned in due course of time, regarding your action plan for the session 2020-21.
