AVERAGE

IIMT COLLEGE OF ENGINEERING, GREATER NOIDA
STUDENT'S OVERALL FEEDBACK ON FACILITIES | 2020-21
FEEDBACK ANALYSIS & ACTION TAKEN REPORT

Analysis:

The marks of each of the 24 parameters are averaged department wise and then averaged as a whole. The result is depicted on histogram. On a scale of 5, 3.5 (70%) is considered satisfactory. From this 02 major points are identified which have scored less than 3.5 (75%) out of 5, among all the parameters, which are as follows.

1. Availability of Internet facilities in the campus.

Internet bandwidth for the Institute had already been increased from 80 MBPS to current 100 MBPS. At present the current bandwidth is found to be sufficient to fulfill all the academic needs of the students and staff.

2. Availability of Sports facilities in the campus.

The Institute has the necessary infrastructure and facilities required for sports, like badminton, basketball, volleyball, most of the indoor games, apart. Students demand ground for sports like football and cricket. The day scholars are not able to get time to avail these sports facilities.

Action Taken:

1. A request has been sent to Director of the institution to consider further increase in the bandwidth, in upcoming session.
2. The sports coordinator is instructed to keep the cricket pitch and other sports facilities in good condition before the student's arrival after a prolonged lockdown and online mode of teaching.
