

## Report On Attainment of Course Outcomes

IQAC organized a session on “**Attainment of Course Outcomes**” on 28<sup>th</sup> August, 2023. The main objective of the session was “to make aware of the course outcome, program outcome, and attainment calculation”.

Nowadays, we all are focusing on outcome-based education, not output based. In fact, the whole world is trying to educate people with the added values, i.e., outcome-based learning. In outcome-based education, awareness of key attributes plays a major role among students and teachers in scoring marks with added value. Every institute/university has prepared Course Outcome (CO), Program Outcome (PO) and program-specific outcome (PSO) for the same. All students and teachers should be aware of CO, PO, PSO and their mapping as well.

### Program Schedule
